

NOTICE TO ALL MEMBERS

Fishing for Schools

Programme Event

Tuesday 10 Nov 2026

Buckingham & District Angling Association is pleased to support the **Countryside Alliance Fishing for Schools** programme.

To support this initiative, the Club has agreed to allow the programme to use Woodfields for a series of supervised **one-hour angling sessions on Tuesday 10 November 2026**.

Fishing for Schools is an established educational initiative aimed at young people aged **10-16 years** and uses angling as a vehicle to encourage learning, personal development and engagement with the natural environment where they can experience the benefits of angling, nature and conservation first hand.

The programme helps young people to:

- Learn new skills
- Build confidence and self-esteem
- Connect with the countryside and wildlife
- Develop communication and teamwork skills
- Improve problem-solving abilities
- Build resilience and personal responsibility

Session Arrangements

- Maximum of **12 pupils** per session
- Two fully qualified **Angling Trust Level 2 Coaches**
- Accompanied by school teachers and support staff
- All activities fully supervised
- Focus on safe, responsible and enjoyable participation in angling

This initiative is an excellent example of how angling can contribute positively to **education, wellbeing, confidence, mental health and engagement with the natural world**.

We thank members for their understanding and support whilst these sessions are taking place. For further information visit: **www.countryside-alliance.org/fishingforschools**
